OKAY

DeepSafe

DeepSafe Manan Bhargava

This meeting is protected by DeepSafe.

Detect members on the call who might be deepfaked or impersonated through fake audio or fake video, and remove these users for your own safety — all in the familiar view of Zoom itself!

DeepSafe Activated

[Learn more about DeepSafe](#)

How does DeepSafe Work?

Through a combination of:

1. Zoom Data
2. Video
3. Audio
4. Company Credentials

DeepSafe calculates a **risk score** based on these factors to determine if a meeting participant is suspicious.

You will be notified if a participant is detected as suspicious and take action to

- 1) remove and 2) report the user.

This screenshot shows a video conference interface with a dark theme. At the top, it displays 'Quarantine Members (1)'. Below this, under 'Joined (5)', five participants are listed with their initials and names: Nils Tabard (NT), Grace Clendenin (Host, me) (GC), Manan Bhargava (Host, me) (MB), and Sri Chandramouli (SC). Each participant has a small video thumbnail to the left of their name and a microphone/volume icon and a video camera icon to the right. Under 'Quarantine Room(1)', two participants are listed: Nupur Agarwal and Manan Bhan. Each participant in the room has a small video thumbnail and a 'Remove' button to the right. The bottom of the screen features a toolbar with various controls: Unmute (muted), Stop Video (video off), Quarantine (with a lock icon and a red notification badge '1'), Participants (with a red notification badge '6'), Chat (with a red notification badge '1'), Share Screen (green), Record (grey), Show Captions (grey), Reactions (grey), Apps (grey), Whiteboards (grey), and Leave (red).
